WhatsApp Messenger: 01154167974 | **Address:** Giza, Egypt (Home)

ABOUT ME

I'm a Front-End Web Developer who enjoys creating modern and responsive websites using React.js, JavaScript, and Tailwind CSS.
I finished the CS50 programming basics course from Harvard University, which gave me a strong start in coding.
I'm now improving my skills in front-end development and working on my English to communicate better and grow in my career.

WORK EXPERIENCE

🏢 **REMOTE – 2023 TO PRESENT**

SELF-INITIATED PROJECTS

- Developed and deployed multiple interactive web applications using React.js, Tailwind CSS, and JavaScript.
- Built and optimized responsive UIs with smooth animations using Framer Motion and CSS transitions.
- Integrated APIs such as NYT Books API and OpenWeatherMap for dynamic real-time data.
- Integrated React Hook Form in the Contact page for efficient and validated form handling.
- Implemented state management with Redux and Context API for scalable components.
- Designed and maintained code using Git and GitHub, following version control best practices.
- Focused on accessibility, cross-browser compatibility, and performance optimization.

EDUCATION AND TRAINING

2021 – 2025
HIGHER INSTITUTE FOR SPECIFIC STUDIES IN GIZA Management Information Systems

SKILLS

Languages & Markup

JavaScript (ES6+) | HTML5 | CSS3

Styling & UI

Tailwindcss | Framer Motion | Dark Mode | Responsive Web Design

Frameworks & Libraries

React.js | React Hooks | React Router | React Hook Form | Material UI | Shadcn UI | i18n

State Management

Redux | Context API

API Integration

Restful APIs | Axios

Tools & Version Control

Git | GitHub | CMD | Postman

Methodologies & Practices

Performance Optimization | Cross-Browser Compatibility | UI/UX Principles

- ## PROJECTS

09/2025
NYT Books E-Commerce

A modern e-commerce website for browsing and buying books from The New York Times Best Sellers.
Built with **React.js**, **Tailwind CSS**, **Framer Motion** and React Hook Form for Contact Page.
Supports **Dark Mode** and real-time data from the **NYT Books API**.
Tech: React.js, Tailwind CSS, Framer Motion, API Integration, React Hook Form, Context API
