

Ali Mohamed

Front-End Developer | React.js & TypeScript Specialist

Giza, Egypt | +201154167974 | ali.dev400@gmail.com | linkedin.com/in/ali-mohamed-10ali | github.com/Ali-mohamed10

SUMMARY

Results-driven Front-End Developer specializing in **React.js**, **Next.js**, and **TypeScript**, with proven experience delivering commercial web applications and SaaS platforms for international and regional clients across **Canada, Saudi Arabia, and Egypt**. Adept at building complex booking workflows, interactive seating maps, and checkout funnels integrating **Stripe**, **PayTabs**, and **Fawaterk**. Dedicated to clean architecture, Core Web Vitals, accessibility (a11y), and SEO.

EDUCATION

Higher Institute For Specific Studies

B.S. in Management Information Systems (MIS)

Giza, Egypt

Sep 2021 – May 2025

EXPERIENCE

Remote Front-End Developer

International (Canada, KSA, Egypt)

Contract Web Developer

Jul 2025 – Present

- Architected and delivered bespoke commercial web platforms and SaaS solutions for corporate clients across Canada, Saudi Arabia, and Egypt using **React.js**, **TypeScript**, and **Tailwind CSS**.
- Implemented end-to-end payment pipelines (**Stripe**, **PayTabs**, **Fawaterk**) with secure webhooks, handling automated checkouts and regional payout settlements.
- Engineered dynamic multi-step booking and checkout funnels using **React Hook Form** and **Zod**, reducing client-side input errors by **40%** and boosting conversion rates.
- Optimized asynchronous state and client caching with **TanStack Query** and **Redux Toolkit**, cutting redundant API calls and achieving **95+** **Google Lighthouse** scores.

PROJECTS

Multi-Tenant Real-Estate SaaS | React 19, TypeScript, Laravel, MySQL

2026

- Architected a multi-tenant ERP platform with isolated tenant scopes, RBAC, and full Arabic/English (RTL/LTR) internationalization.
- Built financial computation engines for deals, tax extraction (14% VAT, 5% WHT), multi-tier commission splits, and treasury disbursement.

Event Ticketing Platform (Khaleeji Tour, Canada) | React 19, Supabase, Stripe | Live Demo

2026

- Built an interactive event booking platform for a Canadian tour operator, featuring a visual seat selection map with dynamic tier pricing.
- Integrated **Stripe Checkout** with webhook handlers for automated ticket issuance, dynamic QR-code generation, and Resend email delivery.

Marketplace & Escrow Platform (Enalink KSA) | React 19, Node.js, PayTabs | Live Demo

2025

- Developed a full-stack freelance marketplace featuring real-time presence tracking, role-based dashboards, and automated dispute handling.
- Engineered a **Node.js** payment microservice integrating **PayTabs** for client escrow management, automated vendor payouts, and audit logs.

Airport Logistics Platform (V Egypt) | React 19, Node.js, Google Maps, Fawaterk | Live Demo

2025

- Built a location-aware airport booking platform with **Google Maps API** for route calculations, distance-based dynamic pricing, and downloadable booking vouchers.
- Integrated **Fawaterk** payment gateway for local cards and mobile wallets, with an admin dashboard for vehicle fleet management and live reservation dispatch.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend & UI: React.js (v18/v19), Next.js, Tailwind CSS, Framer Motion, shadcn/ui, Material UI, Responsive Design

State & Data: TanStack Query (React Query), Redux Toolkit, Context API, Zustand, React Hook Form, Zod

Backend & APIs: Node.js, Express, RESTful APIs, Supabase (PostgreSQL), MySQL, NoSQL, Stripe API, Webhooks, OAuth

Tools & Practices: Git, GitHub, Vite, Postman, npm, Vercel, Performance Optimization, SEO, Accessibility (a11y), i18n

LANGUAGE SKILLS

Arabic: Native Proficiency | **English:** Professional Working Proficiency
